As always, we are ready to help you advance your boating knowledge. Questions? Suggestions? Give us a call at 604-515-5566 or e-mail to info@whiterocksquadron.org

- Course Registration - www.whiterocksquadron.org

CPS Squadron members receive a discount on most courses.

Commander's Comments

So here we are, all ready for the new boating season.

Courses are finished and now we're ready to practice what we have learned over the colder months.

Our Squadron has just concluded another successful year; our enrollment for the Fall and Spring classes was 235 students, up significantly over the last two years (225 and 190) and membership is up a touch over last year.

Your new bridge was elected at the April 12th Annual General Meeting and was sworn in at the Change of Watch by the Pacific Mainland District Executive Officer, Nancy Gibson.

The next meeting of the Bridge will be at 7pm, Thursday August 12th at the ABC Family Restaurant on King George Hwy, and guests are always welcome.

Courses for the Fall have been established and can be found on our website. We will be able to establish course fees by mid June.

New this Fall will be a seminar/guest speaker series – short courses on such topics as On-board Weather, Boat Handling, Knots. We're hoping to run these through the colder months to keep us all involved with our boats over the winter.

Also on the horizon is our 50th Anniversary on April 16th 2011. The planning committee is being co-chaired by Linda

Spence and Laurel Quelch – so we can expect an exciting series of events.

There is a lot of debate going on within CPS concerning what the membership criteria should be. In order to remain relevant it is clear that CPS has to change, and of course this generates lots of useful debate at all levels that should make our organization stronger going into the future. If you would like to contribute to the debate, there is a forum on membership on the National website.

So I wish you all a wonderful summer, with fair winds and calm water always.

See you in the Fall....

- Roger Gibb

Knowledge of the Dangers of Cold Water Immersion is one of the Canadian Safe Boating Council's 5 key messages which also include:

- **Wearing of PFDs and Lifejackets**
- **Alcohol and Boating Don't Mix**
- **Take a Boating Course**
- **Personal & Vessel Preparedness**

Did you know that ... your pet should have its own properly fitted life jacket, found in marine stores and some pet stores. Wearing one at all times will keep your pet safe in case it accidentally falls overboard. Even if your pet can swim, hypothermia or a blow to the head could be life threatening. A life jacket may also make your pet easier to spot and retrieve.

Jim Henderson at trincomalleeii@shaw.ca or
Shane Fawkes at sfawkes@shaw.ca

Gale force winds and high seas kept White Rock Power Squadron members moored in home marinas the April 2 and 3 Easter weekend. A fast moving low pressure system brought gale to storm force winds on the Georgia Strait wiping out a planned cruise to Poet's Cove on Pender Island.

Marina management contacted the cruise master several times inquiring about boat reservations and indicated on the Saturday that storm damage had created electrical problems at the resort and some dock damage. Smoochee Too, a squadron member, had crossed to Port Browning on the Wednesday and did go to Poet's for Thursday and Friday reporting extreme weather conditions on April 2 and 3.

Cruise master
Barry Baniulis

[*Editor's note:* Eleven squadron members got together on Saturday for an impromptu pot-luck barbecue on land rather than face the stormy crossing.]

TRAINING OFFICER'S REPORT and FALL COURSE SCHEDULE

Another successful training year has drawn to a close. For the past two years Squadron Training Officer Cliff Harvey coordinated a team of committed and hard-working instructors and proctors in the delivery of a vast array of CPS courses. Thank you to each and every one of you! Our instructors and proctors spend many unseen hours in preparation for course delivery in addition to their time with students in the classroom. I want to take this opportunity to recognize their dedication to providing such valuable education to the boating community.

All too soon, Fall will be upon us and the opportunity to take additional courses will arrive.

REGISTER ONLINE to ensure your seat www.whiterocksquadron.org/courses Online registration will be available in July.

| <i>FALL 2010 COURSE SCHEDULE</i> | | | | |

Countdown to April

CURRENT MEMBERS of
WHITE ROCK SQUADRON
are asked to please pass along the
information regarding our upcoming
50th Anniversary Celebration
to friends who were past members.
Please ask them to renew friendships
and to take part in our squadron's
Grand Gala Evening in April.
Contact Rick Hepting at
rrhepting@shaw.ca
or 604-560-0065.

The '50th Celebration Crew' has begun planning and will post information as soon as more details are finalized. Mini-events will be held throughout the months leading up to the Grand Gala Evening on Saturday, April 16th, 2011. Watch for announcements via e-mail, during class coffee breaks, as well as in the newsletter.

LAST CHANCE

The *Roster of Members* will be sent for publication this month, so if you want your Boat Name, and/or MMSI number listed and you haven't yet included them in your CPS profile, you must have it updated before May 31st. It is easy to manage your own CPS profile on-line, but if you are not able to enter the data it yourself, your squadron membership officer is now able to do this for you. Just send an e-mail to Membership Officer, Grant Hadland, ghadland@telus.net and include your name and address and the information you want entered and he will update your profile for you. Alternately, you can leave a message for Grant on our information line at 604-515-5566. The *Roster of Members* will be distributed with the August copy of Pacific Yachting Magazine.

CODE PPWDAO

Integrated Cruise

Aug. 27-29, 2010

Integrated Squadron Cruise

Langley Power Squadron is hosting an Integrated Squadron Cruise. All PMD Squadrons and their members are invited and encouraged to attend. The rendezvous will take place at the updated Port Browning Marina. Port Browning has made significant improvements to their facilities, and for those who tent, there's a level playing field. Friday night will be a 'Meet & Greet' as boats arrive. We ask that crabbers start dropping traps for a Saturday afternoon crab feed. Saturday night will include a Pot luck (supply your own main, and

share 1 potluck item). Weather permitting, Sat. night will include a movie showing.

We'd love to see a flood of burgees flown; we're shooting for 60 vessels. Come on out and help create the fun.

When: Aug. 27-29 (Fri - Sun), 2010

Where: Port Browning Marina, North Pender Is.

Contact: Bob Stone (bbbdkc@telus.net), Jim Henderson (trincomalleeii@shaw.ca), or Shane Fawkes (sfawkes@shaw.ca)

Recreational Vessel Courtesy Check Program (RVCC) – 2010

CPS volunteer safety inspectors are now available to meet with you at your boat to ensure your vessel and related safety equipment meet current safety requirements.

To arrange an appointment, contact any of the following RVCC inspectors:

✓ Another great turnout for our March Social / Ed Evening!

A full 2 hours of outstanding photos and dialogue of an excursion to the Galapagos Islands taken by presenter, Dave Emery and friends Shelley and Gerry Durant. A big thank you to Squadron Bridge Officer, John Naylor, for bringing this event to our members.

[*Editor's note:* Visit Dave Emery's website, www.daemery.com, where you can browse thru the Galapagos photos. Use the link, then select the "Vacations" link and scroll down to "Galapagos".]

May 2010 Report from P/D/C Jerry Powers, SN, Gov't. & Industry Liaison to PMD**1. CANADIAN COAST GUARD UPDATE**

As part of the Second Narrows Review, we can expect to see a number of changes to marine aids in the area. New sector lights are scheduled to be installed on Second Narrows Bridge; expected completion of this work was April 2010, however, that is contingent on the outcome of a study of excessive vibration in the bridge structure and its effect on the lights.

Installation of structures for the new Port Moody Range, henceforth to be known as the Caraholly Range, is currently scheduled for June 2010.

Demolition of the old Pitt River Bridge commenced earlier this year but was suspended temporarily by Fisheries. An update on this project will be obtained later this month.

It has been noted that signage in the vicinity of the old bridge is not the best; boaters should exercise caution when navigating the area.

Users of VHF radio with DSC should be aware of a problem that exists where multiple radios are fitted. Receipt of an All Ships call could alarm all radios in a multiple installation thereby overriding or masking critical communication. Turning the additional radios off is not an option since that would end radio communication. For operational safety, it is now necessary to disable DSC in all but one VHF DSC radio interfaced to a GPS. Industry Canada and Transport Canada are addressing the problem.

It has been reported earlier that MCTS Pacific installed a CMB at Vancouver MCTS utilizing two peripheral sites for its broadcasts: Harbour Centre (VHF ch. 83B) and Watts Point in upper Howe Sound (WX-1). First broadcasts were scheduled for April 2010; the system is currently in a testing phase. Boaters should be aware that the CMB may not be receiving regular updates. A NOTMAR will be issued when it is fully operable.

Meteorological Services Canada (MSC) now issues wave height forecasts at 0400 and 1600 PST. This change gives marine forecasters more updated information and provides more timely information for Prince Rupert and Tofino MCTS scheduled voice broadcasts.

Kitsilano CCG base may be part of a strategic review. No action is currently pending but it is rumored that the current 24 hour staffing policy could be reduced to regular business hours. CCG would have to guarantee a 30 minute response time if that were to happen.

2. CHS UPDATE

The new 2010 Chart Catalogue has been published and released. Users will note that it is one-half the size of the previous issue.

Chart 3493 of Vancouver Harbour is scheduled to be released soon. It was originally scheduled for release just prior to the Winter Olympics but that was delayed for various reasons.

At the request of DND, CHS is planning to issue a new Chart 3456 (1:30,000) which includes all of the WG area. It also proposes to cancel existing Chart 3458 (1:20,000), most of which will be contained within new Chart 3456. Chart 3447 (1:10,000) for Nanaimo Harbour will be retained. Concerns about the cancellation of Chart 3458 should be relayed to Dave Jackson at CHS (phone 250-363-6354 or e-mail: Dave.Jackson@dfo-mpo.gc.ca).

3. OTHER ISSUES

Recent concern has been expressed about the state of numerous secondary channels and small harbours in the Fraser River delta. They are silting in and creating hazards to navigation as well as limiting access to port facilities. Port Metro and a host of other agencies have agreed to look at the problem. Boaters using the Fraser River are advised that the entrance to Steveston Harbour has been recently dredged. ■
